

Workshop leaders for MitOst Festival wanted!

For the 2010 MitOst Festival, taking place from 13th to 17th October in Perm, Russia, we seek again for MitOst members eager to lead a workshop or run a mini project (within the framework of the so called ProjectNetWorkShop). The workshops are aimed at MitOst members as well as the inhabitants of Perm area. They can take place in German, Russian, or English.

How to launch a workshop

Share with others what you have learned and what you are interested in, let it be in the area of project management, professional and personal development, languages... Your workshop idea should possibly be based on the contents conveyed by MitOst.

You can inspire yourself by flicking through what was offered last year: www.mitost.org/festival/archiv/festival-2009/programm/pnws.

The workshops generally last 90 minutes, or even longer if necessary.

How to run a mini project

Yes, performing a small team project just during the festival is definitely possible! This concept has become so popular during the recent years that we would like to implement it again. You already have an idea for an action? Just get back to us!

As a workshop leader or mini project coordinator, you are relieved from festival fee.

CONTACT

The ProjectNetWorkShop is coordinated by Magdalena Hadala. Magda comes from Upper Silesia in Poland, she has studied Sociology and German. Two years ago, she became a member of Theodor-Heuss-Kolleg. Starting from September 2010, she will be engaged with MitOst in Berlin as Grundtvig Assistant. Please send your ideas and questions at pnws@mitost.org by 8 August 2010.
